

The Dead of the Maryland Campaign of 1862

The following is a list of individuals in the Antietam on the Web database who died during - or as a result of their participation in - the Maryland Campaign of September 1862. It does not list all of the dead, in part because the historical record is imperfect. But more importantly because the work of gathering their names and other details from the scattered sources and publishing them online is not complete. It is ongoing work which may never be done, actually.

The list is sorted first into groups by State, then by name alphabetically. Blanks in the data show where we are missing information.

Unit name abbreviations generally follow a pattern of regiment number, state, and type. 15MAI, for example, represents the 15th Massachusetts Infantry.

Abbreviations used in the list include:

I/Inf = Infantry A/Arty = Artillery C = Cavalry PRI = PA Reserves Infantry IReg = Infantry (Regulars) S/SS = Sharpshooters US = US Army (Regulars) Batt/Btn = Battalion Btty/Bty = Battery Div = Division Brig = Brigade Co = Company UN = unknown (home state)

KIA = Killed in action MWIA = mortally wounded in action (died later as direct result of wounds)
Died = cause "other" or unknown (KIA, MWIA, accident, disease)

Pvt = Private Corp = Corporal Sgt = Sergeant Lt = Lieutenant Capt = Captain Maj = Major LCol = Lieutenant Colonel Col = Colonel BGen = Brigadier General MGen = Major General Surg = Surgeon ASrg = Assistant Surgeon

For more information about these men and thousands of others who were there, please visit Antietam on the Web <http://antietam.aotw.org>

I will update this list periodically and post it on the blog at <http://behind.aotw.org/2012/08/25/150-the-dead-of-the-maryland-campaign/> ... where you can also let us know what you think, make comments or suggestions, and learn more about the Campaign and the people who lived it.
