											General notes: 1. Many/most transfers out of GH#1 dated 5 or 22 October are unlikely because the man left FtDelaware for Aikens' Landing on 2 October; other dates suspect when man had already died or died in Fred'k later 2. No unit in Maryland had a Company J - they are all "I" in this list 3. Numbers 362 and 363 each used twice		
										Narrative on website:	The Confederate Army occupied the Union's General Hospital #1 in Frederick, Maryland, just before the Battle of Antietam in September of 1862 [on September 6th, 1862]. When the Confederates departed a week later, they left behind 471 [469 listed, prob others not listed] sick and wounded soldiers who could not move with the army. This list covers men, who were later sent to Fort McHenry and exchanged Note: Most were sent to Ft Delaware and later exchanged, some died before leaving Frederick, some died later but before being exchanged, etc]
